15B. CONTRACTOR/OFFEROR BY 	15C. DATE SIGNED 21 NOV 03	16B. UNITED STATES OF AMERICA BY 	16C. DATE SIGNED 24 NOV 03

a. This modification is issued to add to Part One, Table Four, SCLIN 0029BB to allow Legacy Systems Support; SPAWAR ITC (SITC) New Orleans Network Separation and Augmentation, as follows:

Item	Service	Quantity	Unit Price	Total Amount
0029BB	Legacy Systems Support; SPAWAR ITC (SITC) New Orleans Network Separation and Augmentation	1	\$373,355.68	\$373,355.68

The Contractor shall provide Legacy Systems Support; SPAWAR ITC (SITC) New Orleans Network Separation and Augmentation in accordance with the document entitled Statement of Work – Legacy Systems Support SPAWAR ITC (SITC) New Orleans Network Separation and Augmentation.

b. A conformed copy of the revised contract is made a part of this modification as a result of the changes outlined herein.

c. All other terms and conditions of contract N00024-00-D-6000 remain unchanged and in full force and effect.

Statement of Work
Legacy Systems Support
SPAWAR ITC (SITC) New Orleans Network Separation and Augmentation

The SITC Data Network infrastructure is currently connected with the Commander Naval Reserve Force (CNRF) Data Network infrastructure. As a result of the Department of Defense (DoD) Inspector General (IG) and SPAWAR Assist Visit findings, a decision has been made to separate the SPAWAR Information Technology Center's subnets and build the second subnet into a fully functional network thus creating two independent networks. It is desired that this separation of the subnets take place as soon as possible, preferably within a three-week timeframe.

The CNRF and SITC Data Networks currently share the same Network Core. Two Cisco 6509 and two CoreBuilder 9000 switches make up the Network Core. Fiber Gigabit Ethernet connections are used to connect the Distribution and Access Layers to the Network Core. The two network infrastructures are using two different IP address numbers.

Upon completion of the above network separation and augmentation effort, the following network services shall be available to both networks:

- DNS Service
- DHCP Service
- Firewall Service
- VPN Service
- HTTP Proxy Service
- E-mail Service
- Print Service
- Network Management Service
